### *Introduction*

We have reviewed the accompanying unaudited condensed consolidated interim statement of financial position of Abu Dhabi National Oil Company for Distribution PJSC (“ADNOC Distribution” or “the Company”) and its subsidiary (collectively referred to as “the Group”) as at 30 September 2020 and the related unaudited condensed consolidated interim statements of profit or loss and comprehensive income, changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this unaudited interim condensed consolidated financial information in accordance with International Accounting Standards 34, ‘*Interim Financial Reporting*’ as issued by International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on this unaudited interim condensed consolidated financial information based on our review.

### *Scope of review*

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unaudited condensed interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 as issued by the IASB.

**Notes to the unaudited interim condensed consolidated financial information for the nine-month period ended 30 September 2020 (continued)****2 Application of new and revised International Financial Reporting Standards (IFRS)**

(a) *Amendment to standards and interpretations issued and effective during the financial year beginning 1 January 2020 with no material effect on the financial statements:*

- *Amendments to references to the Conceptual Framework in IFRS standards*  
Amendments to References to the Conceptual Framework in IFRS Standards related IFRS 2, IFRS 3, IFRS 6, IFRS 14, IAS 1, IAS 8, IAS 34, IAS 37, IAS 38, IFRIC 12, IFRIC 19, IFRIC 20, IFRIC 22, and SIC-32 to update those pronouncements with regard to references to and quotes from the framework or to indicate where they refer to a different version of the Conceptual Framework..
- *Definition of Business - amendments to IFRS 3*  
The amendments clarify that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. IASB also clarify that a business can exist without including all of the inputs and processes needed to create outputs. That is, the inputs and processes applied to those inputs must have ‘the ability to contribute to the creation of outputs’ rather than ‘the ability to create outputs’.
- *Definition of Material – amendments to IAS 1 and IAS 8*  
The new definition states that, ‘Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.’
- *Interest Rate Benchmark Reform – amendments to IFRS 9, IAS 39 and IFRS 7; and*  
The amendments in Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7) clarify that entities would continue to apply certain hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform.
- *Covid-19-Related Rent Concessions – amendments to IFRS 16*  
The amendment provides lessees with an exemption from assessing whether a COVID-19-related rent concession is a lease modification. This is effective for periods beginning on or after 1 June 2020.

- Classification of Liabilities as Current or Non-Current – amendments to IAS 1 (effective from 1 January 2023);

**Notes to the unaudited interim condensed consolidated financial information  
for the nine-month period ended 30 September 2020 (continued)****3 Summary of significant accounting policies****Basis of preparation**

The unaudited interim condensed consolidated financial information does not include all information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2019. In addition, results for the nine-month period ended 30 September 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020. Where data is labelled as "audited" that indicates that the financial information has been extract from the Company's audited consolidated financial statements for the year ended 31 December 2019.

**Basis of measurement**

This unaudited interim condensed consolidated financial information has been prepared under the historical cost convention except derivative financial instruments that are measured at fair value.

The deferred liability is included within trade and other payables.

**Notes to the unaudited interim condensed consolidated financial information  
for the nine-month period ended 30 September 2020 (continued)****3 Summary of significant accounting policies (continued)****Changes in judgements and estimation uncertainty**

The preparation of these unaudited interim condensed consolidated financial information, in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's annual financial statements for the year ended 31 December 2019, except as detailed below.

In March 2020, the World Health Organization (WHO) declared a new strain of coronavirus (COVID-19) as a pandemic outbreak after finding the increase in exposure and infections across the world. To contain the outbreak in the United Arab Emirates, the government enforced restriction of movement for both people and goods including the closure of both inbound and outbound flights to and from the country.

The outbreak comes with unpredictable human and economic consequences and its evolution remains unknown at the date of the issuance of the financial statements. As the situation is rapidly evolving, the impact on the Group's activities and operations remains extraordinarily uncertain.

The Group regularly assesses the impact of COVID-19 on its operations, business continuity, liquidity and legal obligations. In the current period assessment, the Group expects, notwithstanding another outbreak of the pandemic, a continued recovery in consumption in the retail and non-retail fuel sector due to the easing of some of the restrictions that had been in place at the beginning of the pandemic.

The impact of this outbreak led to an increase in the expected credit loss of trade receivables to AED 49,662, thousand (31 December 2019: AED 9,154 thousand) and allowance for write-down to net realisable value and slow moving of inventories of AED 21,401 thousand (31 Dec 2019: AED 15,446 thousand). The Group will continue to closely monitor the impact of COVID 19 and a prolonged continuation of the situation and/or another outbreak may lead to further provisions and/or impairment in future periods.

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the Board of Directors, as the chief operating decision maker (CODM), in order to allocate resources to the segment and to assess its performance. Information reported to the Board of Directors for the purpose of resource allocation and assessment of segment performance focuses on the financial performance of each business segment only. Transactions between segments are conducted at the rates determined by management taking into consideration the cost of funds.

The Group operates primarily in United Arab Emirates and accordingly no further geographical analysis of revenues, profit, assets and liabilities is given to the chief operating decision maker.

Segment revenue reported represents revenue generated from external customers. There were no inter-segment sales in current and previous period. Operating profit is the measure reported to the Board of Directors for the purpose of resource allocation and assessment of segment performance.
