

# PRODUCT DATA SHEET

## ADNOC Degreaser QB

### DESCRIPTION

**ADNOC Degreaser QB** is an aqueous oil degreaser with rapid quick break properties to produce emulsion free rinse water. Ideal for the removal of oils and greases from oil pollution equipment, hydro power stations, offshore platforms and for cleaning in similarly environmentally sensitive areas.

### APPLICATIONS

**ADNOC Degreaser QB** is designed for by contact, dip, immersion or spray application. Use as supplied for general degreasing or with a recommended dilution of 4 – 6% for maintenance cleaning. It is recommended for resolving discharge consent problems when cleaning in environmentally sensitive areas.

### BENEFITS

- **Highly effective**
- **Very fast quick break degreaser**
- **Approved for Offshore Use**
- **Suitable for marine use and other environmentally sensitive areas**
- **Emulsion free quick separation of oil phase from rinse water**
- **Versatile and suitable for cleaning oil contaminated birds & wildlife**
- **Cost effective, being capable of significant dilution rates as low as 4%**
- **Hazard label free Non-hazardous to the user or environment**
